

Big Balls

The altered song lyrics hint toward something on top of the *Eurodam* and near the middle of the ship. Go outside and climb some stairs up past deck 11 (this requires a little exploration), and you'll find an area with five radio antennas in spherical housings, in roughly the positions shown on the puzzle diagram.

Each radio dome/ball is labeled with the name of a telecommunications company. The equals sign (=) indicates which two balls have the same name. Fill in the blanks and then transfer the letters to the final box in numbered order to get the answer: **SEA NERD**
